6

- Consider the following two monosaccharides, (A) and (B).

 β -D-altropyranose

 α -D-xylofuranose

Draw Fischer projections of the open chain forms of (A) and (B).

(A)	(B)
-----	-----

Draw the major organic product of the reaction of D-altropyranose with the following reagents.

1. NaBH_4 2. $\text{H}^+ / \text{H}_2\text{O}$	$[\text{Ag}(\text{NH}_3)_2]^+ / \text{OH}^-$
---	--
